1.3.3 - FIRST AID POLICY

May 2015

Statement of Intent

Stanford Pre-school staff are able to take action to apply first aid treatment in the event of an accident involving a child or adult. At least one member of staff with current first aid training is on the premises or on an outing at any one time. The first aid qualification includes first aid training for infants and young children.

Procedures

The First Aid Kit: Our first aid kit complies with current Health and Safety (First Aid) Regulations. It is checked every term against an inventory list to ensure adequate supplies are available at all times. The inventory list is kept in the first aid box.

First Aid Procedures

- The first aid box is easily accessible to adults and is kept out of the reach of children.
- No non-prescribed medication is given to children.
- Parents are asked for their permission to apply a plaster to their child before they start at Pre-school should the need arise.
- Parents sign a consent form at registration allowing staff to take their child to accompany a trained medic to the nearest Accident and Emergency unit to be examined, treated or admitted as necessary on the understanding that parents have been informed and are on their way to the hospital.

This policy was amended at a meeting of the Pre-school held on 18th May 2015 and signed by Mrs Karin Williams-Cuss.

Signed on behalf of the Pre-school
